EXPERIENCE

Backend Developer · Tecforz Innovations Pvt. Ltd. *Nov 2026 – Present*

Full Stack Developer · Saiha Software Technologies Pvt. Ltd., Kochi, Kerala *2024 – Nov 2026*

- Designed and developed 100+ RESTful APIs using Laravel and Yii2 across ERP, CRM, and financial management systems (including clinic/practice management platforms), improving backend response time and supporting seamless integration with web and mobile clients.
- Architected and optimized MySQL databases to handle high data volumes, reducing query execution time by ~35% through indexing and schema refactoring.
- Applied MVC architecture across multiple projects, resulting in cleaner, modular codebases that reduced onboarding time for new developers.
- Conducted R&D on new frameworks and automation tools, integrating findings into production to improve system performance.
- Collaborated with designers and QA engineers to deliver secure, responsive, and high-performing web applications on schedule.

Tech Stack: *Laravel, Yii2, MySQL, REST API, MVC Architecture, JavaScript, Python, Git, Bitbucket*

Full Stack Web Developer · Freelance *2022 – 2024*

- Designed and delivered custom web and mobile applications for clients across education, services, and retail sectors using Laravel, PHP, JSP, Django, Spring Boot, and Flutter.
- Managed the full project lifecycle — from requirements gathering and development to server configuration, deployment, and ongoing maintenance.
- Optimized MySQL databases for efficient data handling; improved application performance through query tuning and caching strategies.
- Built a strong client retention track record through responsive communication and on-time delivery of high-quality, tailored web solutions.

Tech Stack: *PHP, Laravel, JSP, Django, Spring Boot, MySQL, MVC Architecture, Web Hosting & Deployment, Linux Server Administration*

TECHNICAL SKILLS

Backend: PHP, Laravel, Yii2, Java, Spring Boot, Django, REST API, MVC Architecture

Frontend: JavaScript, HTML/CSS, Flutter (cross-platform)

Database: MySQL (query optimization, indexing, schema design)

DevOps & Tools: Git, Bitbucket, AWS, Linux & Server Administration, Web Hosting & Deployment, Cursor (AI-assisted dev)

Other: Python, REST API integrations, Agile/collaborative workflows

PROJECTS

Green Track – *Spring Boot, Python, MySQL, Flutter*
A comprehensive waste management platform enabling admins to assign collection duties, track waste metrics, and resolve complaints. Integrated predictive analytics using Python to classify complaint severity and automate prioritization, improving issue resolution efficiency.

Get Your Services – *Laravel, REST APIs*
A location-based emergency services web app connecting users to nearby responders in real time via location APIs. Focused on low-latency response and reliable geolocation matching for time-critical scenarios.

EDUCATION

Rajagiri College of Social Sciences (Autonomous) – Kochi, Kerala *2022 – 2024*
M.Sc. Computer Science with Data Analytics

Mar Kuriakose Arts & Science College – Kottayam, Kerala *2019 – 2022*
Bachelor of Computer Application
